**Fuel Tanks and Tracking for Road and Bridge-** The commission met with Road and Bridge employees, current Camden County fuel provider and Mid-South Steel Products, Inc rep Gene Dedmon. A general discussion of options for fuel tank locations county wide along with fuel dispensing monitoring options. Several options were discussed. Road and Bridge is going to come up with a plan for what locations can be consolidated and where those consolidated locations will be. A Concern about having locations within "political subdivisions" may require additional compliance with related requirements, which may prevent establishing sites within those "policital subdivisions". Once that information is determined, Gene Dedmon will be contacted to provide an estimate of cost for implementing fuel dispensing software at each location. Currently believed that Mid-South Steel Products, Inc is on State Contract and bidding the efforts will not be necessary.
