

**CAMDEN COUNTY WASTEWATER DEPARTMENT
ON-SITE SEWAGE DISPOSAL SYSTEM
CONSTRUCTION PERMIT APPLICATION
1 COURT CIRCLE SUITE 12, CAMDENTON, MO. 65020**

PERMIT NUMBER _____

TANK ONLY

INTRODUCTION

Thank you for contacting us concerning plans for replacing your existing septic tank. As you may know, the Camden County Wastewater Department is required by law to regulate the design, construction and operation of on-site sewage disposal system, including septic tank replacement.

Constructions of your on-site sewage disposal system or tank replacement may not begin until a permit has been issued.

To expedite this process, please follow these steps.

1. Fill in the "On-Site Sewage Disposal System Construction Permit Fee" form and submit it, along with the **\$150.00** fee, to the address on the form.

2. Use the "On-Site Sewage Permit Instructions and Check Off" form to ensure that all of the required information has been gathered. Then, submit the completed forms and all necessary drawings and plans to this office.

3. Upon receipt of the completed application packet, a Wastewater representative will schedule a site visit. If the results of the site visit and plan review are satisfactory and the permit fee received, the permit will be issued and construction may begin, providing there are no variances being applied for. If variances are requested, the permit application will go in front of our variance board, which meets every 2nd & 4th Wednesday of the month.

Enclosed in this packet you will find the following items:

1. The Permit Application form.

2. The Instruction and Check-Off form.

If you or your contractor needs additional information, or if we can help you with this in any way, please feel free to contact our office at (573) 317-3810.
